GM9957 GM Scenics Leaflet  
1st Edition

## Scenics

The Gaugemaster Scenics range is comprehensive, and contains everything you need to turn a train set into a model railway. The range contains trees and hedges, scatters (including flock, static grass, leaves), walling, plants and tufts, and our range of photographic backscenes.

## Photographic Backscenes

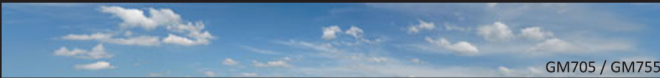

Our range of backscenes will bring an extra dimension to your model railway. A decent amount of foreground allows realistic blending with contoured scenery and the images look great on specially selected 150gsm durable silk paper.
