250 g, ready-for-use, transparent after drying. The Landscaping Spray Glue is a real all-rounder with countless applications. Application 1 »Adhesion«: For flocking bushes, trees and shrubs, the tree structure is sprinkled with the Landscaping Spray Glue and then flocked with leaves, flock or structure flock. After the drying process, the tree is sprayed once again with the Landscaping Spray Glue in order to fix the leaves. Application 2 »Fixation«: After loosely applying the material (rubble, ballast, flock, etc.) you want to fix, subsequently spray it with the Landscaping Spray Glue. After drying, you may add and fix additional layers, in order to increase the materials' volume. Application 3 »Sealing«: Ensure finished objects (such as flocked trees, bushes or designed vegetation) are sealed permanently by spraying the Landscaping Spray Glue. This way you can increase the objects' durability and stability. The Landscaping Spray Glue is delivered ready-for-use and it dries transparently. The nozzle of the Landscaping Spray Bottle fits onto the Landscaping Spray Glue.			matt, NOT FOR SALE IN USA AND CANADA		61200	New Item	P. 65	61630	P. 15

88163 *New Item* P. 311
Electronic Regulator Kit
 The Electronic Regulator features two control dials for controlling for activating two independent power circuits. The two control dials serve for driving trains forward and backward with a zero position in the centre. Additionally, the regulator features four on/off-buttons to switch four continuous current outputs. They serve for connecting LEDs; their brightness can be controlled by the included potentiometer. The regulator kit includes a battery box for a 9V monoblock battery. It serves for driving Z scale locomotives on the way without using a power pack (Attention: not suitable for N scale locomotives!). To operate a Z scale (briefcase-) layout, you need the Power Pack ref. 88171 additionally. To operate an N scale (briefcase-) layout, you need the Power Pack ref. 88172 additionally.
 Note: Not suitable for the Briefcase Layout «Sonnenalpe» (ref. 88250 & 88271). The exact features concerning the performance of the Regulator Kit were not available when printing the catalogue. You will find them, as soon as available, on www.noch.com.
