# ORDERING INFORMATION & TERMS

May 2018

Dear Atlas Authorized Dealers and Distributors,

Welcome to the May 2018 Atlas All Scales Monthly Catalog. Again this month, dealers and distributors will be receiving a Consumer (MSRP only) Edition of the ASMC that can be displayed for customers, as well as an "Official Pricing and Ordering" Edition that is confidential, with quantity discount pricing order forms. This allows you to display the Consumer Edition while keeping the other for your ordering purposes. These documents will be available in physical and electronic formats. If you wish to receive a hard copy of these each month, feel free to call us and request to be put on the mailing list. You can also view and reserve monthly releases, in stock products, track & accessories via our online store, [shop.atlasrr.com](http://shop.atlasrr.com).

Atlas authorized dealers and distributors are also encouraged to distribute copies of the Consumer Edition to their own proprietary consumer lists—both physical and electronic—to help promote awareness of these new product announcements and arrivals.

Here at Atlas, we have an unwavering dedication to prototypical authenticity. Unless otherwise noted, every paint scheme that appears on a model we produce has been carefully researched and recreated to look exactly as it did on the prototype.

As the calendar turns to May and the Summer season begins, Atlas is here to make sure that any modeler's needs are covered! We're announcing new paint schemes and road numbers on N scale GP40's and HO Dash 8-40 B locomotives. Thrall Gondolas and PS-2 Hoppers are being offered in HO & N, along with Maxi IV Well Cars, 53' Containers and new structures in O scale!

As you can tell from this month's cover photo, the long awaited Trainman® O scale Dash 8-40's are arriving this month! We apologize for the long wait - but it has been said that great things take time - and we're sure you'll agree that the Dash 8 is one of those great things! With improved features such as oscillating ditch lights, operating diesel exhaust smoke, 14 to 1 gearing, a grease port and more, we feel like these models are worth the wait! You'll find more details on these arrivals and more inside - including locomotives, rolling stock and track in all scales.

Sincerely,

Joe Kolnoski  
Vice President of Sales
