MAIN FEATURES	The perfect size to start. From battery-powered circuits to double looping. Ideal for the little ones in the house, where they can enjoy a smaller scale where cars are more manageable and robust.	Circuits with lane change, to overtake your opponents. In addition to being able to choose if you go through the loopings or down the ramp with the shift button on the controller. Only for the most bold.

MAIN FEATURES	The usual SCX.	Includes all the technology with bluetooth track and smartphone and tablet connection. Enjoy a very real competition, with race manager, overtaking and pit lane stops to refuel.

SCX® COMPACT

SCX Compact or 1:43 racing sets offer all the fun and excitement 1:32 does but at smaller size.
Youngest racers will enjoy fantastic layouts, loopings, bridges, lap counters and many more cool challenges in tight spaces.
Compact sets offer a wide range of different configurations: sets powered by batteries, big time circuits, with and without wireless hand controls, sets with loopings, etc.
Everything to make children thril and increase their love for races and competition cars.

SCX® ADVANCE

In a digital and technological world, 1:32 scale competitions could not lag behind.
Back to 2003, our brand SCX was the first in the world introducing digital technology to 1:32 cars and competitions. Since then, many new tecnollogies and improvements have been implemented achieving incredible features and settings.Today, all communications between cars and pilots are driven by radio and cars races set through tablets or smartphones and the use of specific applications.

More features to underline:
• Bluetooth connect for tablets and smartphones communication. • Wireless hand controls only
• Easy connection to social networks
• Best system changing tracks.
• Unbeatable control and driving feeling.
• 9 cars racing simultaneously.
