SCX **SCALE 1:32**

The SCX 1:32 range invites you to experience the thrill of motorsport like never before. Designed to offer maximum precision and detail, this scale combines realism, speed, and fun. It also takes a leap into the future with SCX Advance—the most advanced technology that elevates your races to the next level—allowing you to enjoy app-based control, multiple cars on the track, and total customization.

With models faithful to the original cars and circuits brimming with possibilities, SCX 1:32 is the perfect gateway to a world of innovation and adrenaline.

Feel the passion for racing from the comfort of your home!

THE COMPETITION THAT BRINGS US TOGETHER.

- DC CARS WITH LIGHT
- 2 PLAYERS
- WIRED CONTROLLERS

The 1:32 scale is the perfect size to enjoy racing as a family from every angle. Both adults and children can feel the thrill of speed and have fun with stable cars and easy-to-use controllers.

Plus, the Classic range is upgradable to SCX Advance—both cars and tracks—so you can take your races to the next level when you're ready.

MERCEDES - BENZ 300 SL COUPÉ 24 LE MANS 1956

(Paul Metternich & Wittigo von Einsiedel)

Probably no other Mercedes is as famous worldwide as the 300 SL. Considered one of the first supercars in history, its combination of **design and technology** made the "Gullwing" a legend from the moment it was unveiled.

At SCX, we have **replicated every specific detail of this model**: front bonnet latches, indicator lights on the fenders, transparent windshield, auxiliary front lights, taped headlights, and more.

A true **limited-edition gem**, designed for **authentic SCX collectors only**.
