

DCCconcepts are proud to present **Zen** Decoders.

Zen is a new decoder range with a personality all its own. **Zen** features unique design, great performance and it has an "installability" that is something special.

Decoders are all too often designed by engineers to suit engineers... Lots of features that are never used, dozens of light options and functions that are just not needed, too many wires, just too big to fit easily...

The list goes on and on - and it became very clear to us as we talked to modellers around the world that some issues were ignored and that is a problem because all model trains are not the same at all.

Some prototypes, made to a smaller loading gauge than the USA and parts of Europe, give modellers a real headache when the time comes for them to choose and install a decoder.

We wondered... Why does nobody think about the end user?

So... we did. We ignored convention, looking across problems not at them. We looked at need not want... and we enjoyed doing it. The name we chose just seemed to match our approach so well...

Zen is a range of 7 totally new DCC decoder designs that include the worlds smallest direct plug decoder, a totally universal micro 6-pin, as versatile 21 + 8-pin plus the smallest "Big decoder" there is...

Zen Buddha has huge power handling but is small in size, It has 6 functions and a 3Amp motor drive, plus 3 different forms of protection.

Zen Decoders all have multiple installation options - so one decoder fits many loco types. The range has choices for every common scale too!

Zen Decoders are packed with an all-new Slim and very powerful Stay-Alive™ that is four times stronger and yet it is also both smaller and thinner than others for easy installation! (also sold separately in packs of 3)

We love **Zen**. We hope you do too!

DCCconcepts thinking outside the square

By DCCconcepts **Zen**

Unique performance, real usability

Decoders that WILL fit every locomotive...

ZN218 has 8 pin and 21pin 21MTC ability.

ZN668 is 6P direct & also includes 6pin to 6 pin & 8 pin to 8pin harness for complete installation flexibility

Zen 360 Direct
14.2 x 12.5 x 3.5mm

Zen ZN6D
13.5 x 8.5 x 3mm

Zen 218
22 x 16 x 4.5mm

Zen ZN668
13.5 x 8.5 x 3mm
